## ONE Terminal Run in Poland

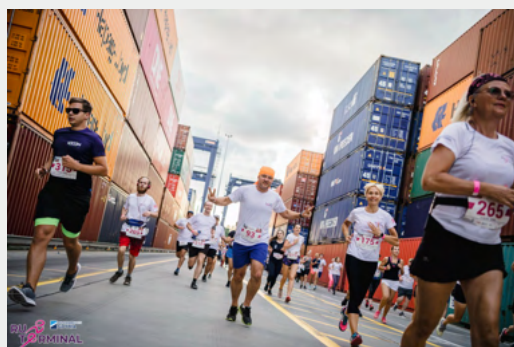

An unusual event took place on August 15, 2021. ONE Poland together with Gdynia Container Terminal (GCT) - Hutchison Ports organized a charity run to support the children's hospice in Gdynia. The race was attended by representatives of various companies from the maritime industry: forwarders, truckers, shipping lines. ONE Terminal Run has become a joint event connecting the transport industry in Poland. Our containers were the background of great competitions.

Many participants dream of running along the normally inaccessible wharf, the tickets sold out at a record pace. The run had two parts, race of one nautical mile for those who are just starting their adventure with running, and 5 km for more experienced ones.

We collected funds for the hospice directly during the run (an authorized volunteer was present), and in the following week through online auctions of gadgets provided by sponsors. We also donated the entire amount remaining after paying the costs of the organization (medals, protection, paramedics, etc.)

The whole event went great. We received many words of encouragement to continue the project in the following years. We do hope to organize this regularly.

It was truly ONEderful day.
